

GENETIC MECHANISMS AND EVOLUTION TRAINING PROGRAM ANNUAL RETREAT

FRIDAY, MARCH 28TH

NOON - 5 PM
GCIS 301

GUEST SPEAKERS

Dr. Amy Stark

Human Genetics PhD'2011

Dr. John and Heidi Passarelli Family Director
DNA Learning Center
University of Notre Dame

Professor Sohini Ramachandran

GME *ad hoc* External Advisory Board member
Hermon C. Bumpus Professor of Biology
Founding Director, Data Science Institute
Brown University

Dr. Alexander Arguello

Program Director, Division of Genome Sciences
National Human Genome Research Institute (NIH)

Dr. Christina Roman

Biochemistry & Molecular Biology PhD'2021
Associate Director of Diversity and Inclusion
Biological Sciences Division

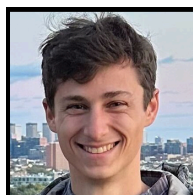

STUDENT WORK-IN-PROGRESS PRESENTATIONS

Paula Fernandez Begne

Ecology and Evolution

*Functional and regulatory investigation of a
key herbivore detoxification gene*

Jenks Hehmeyer

Integrative Biology

*A hemichordate gene expression atlas and the
phylum-specific diversification of neuron types*

Busayo Bolonduro

Genetic, Genomics, and
Systems Biology

Gene regulation underlying cell plasticity
