

## Faculty Mentor Training Series

### Speakers will include:

**Laurie Risner, PhD**

Director of Postdoctoral Affairs

**Amy Hark**

Director of STEM Graduate and  
Postdoctoral Career Development

## Session 3: Mentoring for Professional Development

**May 22, 2026**

**11:30 AM - 1:00 PM in GCIS 301/303**

*This session will focus on what we can do to prepare our trainees most effectively for the wide array of career options available to them upon graduation. We will share data on post-graduation career trends for our graduate students and have invited speakers, from across campus, presenting resources available to advance the career development of trainees. We believe this mentoring session will equip faculty with new resources for supporting their trainees professional and scientific development.*
